# Rockin' Roadshow at local schools

MATRICES at Carter High School got to grips with their career choices on Friday afternoon when the Standard Bank Rocking Future Roadshow made a pit-stop at their school.

The Roadshow, that is presented by two teams visits two schools each day from January to May and covers schools in Johannesburg, Cape Town, Port Elizabeth, Durban and Pietermaritzburg.

The idea behind the initiative is that by the end of May 30 000 matriculants

would have a better idea about what to do with their futures.

This year Linpark and Carter High Schools, Maritzburg College, Michaelhouse and the Wykeham Collegiate found themselves on the list for the Roadshow.

Pupils at the schools are given the opportunity to meet and interact with a variety of the country's top colleges and universities.

By being entertaining and educational, the show helps Matrics make

more informed decisions regarding the possible study options available to them once they leave school.

Matrics are also given a Future Guide magazine which is filled with useful information regarding careers, study choices and life after high school.

Matrics are also able to follow the show and enter competitions on the show's Facebook page at <http://www.facebook.com/rockingfuture>, or log on to <http://www.rockingfuture.com> for more information.
