

# 'Rocking your future' at Glenvista High

**What am I going to do after school? This is arguably one of the most common daily thoughts on a matric students mind, (besides boys, girls, cars and parties of course!).**

With this in mind Glenvista High School hosted the Standard Bank Rocking Future Roadshow as a career day event for their matric pupils.

Miss Siziwe Molwana, Head of Department of Life Orientation says that they normally host two different days, one for matrics and another for the other standards.

"The day is aimed at giving a number of colleges, universities and other tertiary institutions a platform to enlighten students as to what they can look forward to after school,"

said Siziwe.

"We have 235 matrics in our school and it is our duty to try to prepare them for what follows after matric."

What is the Standard Bank Rocking Future Roadshow? It is the most fun any Grade 12 can have while learning about study opportunities in many tertiary institutions.

The Show took place on February 17 during school hours in the school hall, and gave Grade 12's the chance to speak personally to representatives of the colleges they are interested in attending.

Add live music, and loads of prizes and giveaways, and you had a recipe for loud, informative fun that left a lasting impression on many of those who attended.

**Miss Siziwe Molwana (HOD Life Orientation) and Mrs Maricien Maritz (Deputy Principal) were at the Standard Bank Rocking Future Roadshow held at Glenvista High School. Siziwe organised the programme for the day.**
